

We use the right touch to get you excellent results

Marshall White, Music Consultant

Dear Tim, Dave and Your Team:

Words cannot express the gratitude in my heart for all of you who helped make our first fundraiser auction a great success.

On this journey we've received so many pats on the back for the work we have done, but to meet people, who go to the next level of expressing their appreciation, is very refreshing.

Your sacrifice and excitement for our cause has given me the strength to continue giving my life to this cause. I thank God for all of you and hope that you will continue to spread the word about UPAF'S impact. The impact will grow, as more people are made aware of what we are doing to produce more and more quality young people.

We are blessed to have met you two guys, but I have always said since being on this journey, nothing happens by surprise.

Again, thank you for reaching out a hand to help us through this real tough time with your interest, concern, time, skills and resources. Your kindness will not go unnoticed.

May God Bless You All.

Marshall
